

IMMIGRATION TO TEXAS

You will create a poster telling others about one group of immigrants that came to Texas. Your poster will have **4 parts: obstacles** (problems) the members of your group had to overcome, **location** (where most settled), **contributions/famous people** (from your group), **customs/traditions/foods/other interesting facts**.

Each quadrant (fourth) will contain a picture (that fills the section) & one or two well-written sentences giving us about your group.

You will have all of this period & the first half of next period to complete your poster. The last half of next period will be a time for you to share your knowledge with the rest of the class.
