ELAR

In reading students will make inferences about text using textual evidence to support understanding by stating their schema and story clues to create an inference.

Students use complete sentences with correct subject-verb agreement by discussing what the components of a complete sentence are and writing complete sentences.

Math / Science / Social Studies
In math students will use standard, word, and expanded forms to represent numbers up to 1,200. Students are introduced to science investigation systems. They explore steps of one scientific method and learn how this scientific method is a system that helps students think scientifically.
